

Soft Close Installation Instructions

Note: If you encounter any problems with the package and/or the following installation, please email us at info@doubledw.com and include your order id.

Included Parts List:

- 2 x Soft Close Mechanism
- 4 x S-Shape Hooks
- 2 x hex wrench
- 2 x Actuators
- 4 x Tapping Screws
- 4 x Actuator Spacers (Height of each spacer: 0.15")

Step 1: Install the Soft Close Mechanism

- Connect the two S-Shape hooks to both end sides of the soft close with the supplied screws.
- Install the Soft Close Mechanism on the left and right sides and loosely fix it with set screws. You may need to loosen the set screws and slide the soft close down towards the door to properly activate with the actuator.

Step 2: Install the Actuator

- Push the door all the way to the left
- Place actuator into the gap/slot of the soft close mechanism and screw to the top of the door with the supplied screws
- Repeat for the right side

Usage Statement:

Use of excessive force when opening, and closing, the door(s) may result in damage to the hardware.
